## DETAILED ACTION

### *Election/Restrictions*

Claims 17-23, 25 and 26 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected group, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on Sept. 30, 2008.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 24 and 27 are rejected under 35 U.S.C. 102(c) as being anticipated by Grant et al. (Grant) (2006/0001851).

Grant discloses a projection exposure apparatus comprising an illumination (inherent, not shown) a projection objective (24) for imaging a reticle (inherent, not shown) onto a photosensitive surface (28) and an immersion device (32) for introducing an immersion liquid into an immersion space (Fig. 2, para 0020) wherein the immersion device is configured to introduce a flushing liquid different from immersion liquid into the immersion space to remove residue of used and contaminated immersion liquid (abstract, para 0022).
